

Exceptional Quality Guaranteed!

Trima Manufacturers of high quality dough divider rounders

The KE model offers 4, 5 or 6 rows with a production capacity of 6,000 to 9,000 pieces per hour.

The K2 model is a 2 row divider with a production capacity of 1950 to 3,200 pieces per hour.

The dividers can also be equipped with other options such as intermediate proofer, stamper, moulder.

- Kemplex sheeters have been designed and developed to be both functional and easy to use.
- The Kemplex semi-auto and fully automatic range of sheeters have been specifically designed for use in hotels, restaurants, pastry shops and for use in small to large size bakeries.
- The direction belt drive is either hand lever or foot peddle operated in the semi-auto range.
- The sheeters also have a very friendly operator inching lever.
- There are pastry catches on either end of the sheeters.
- The arms of the sheeters can be folded up to save room in your kitchen once the operation has completed.
- The machines are wheel mounted thus ensuring easy maneuverability.
